MUHBA Digital

Barcelona during the yellow fever epidemic of 1870
La Campana de Gràcia, October 9, 1870

Hello,

We hope you're doing your best.

The MUHBA is not closed. We keep the digital museum open, while we continue to work from home on all the projects.

Among the many proposals available on the MUHBA website, today we present the new version of [the Historical Charter of Barcelona](#), with twenty-two six linked cartographic creations. We also announce that the first series of [the MUHBA Collections](#) is now available online.

And remember that the [MUHBA YouTube channel](#) has dialogues and seminars, which will soon increase: we will register them for you!

The MUHBA team.
